Electric Service

Brings Real Comfort

It is the little comforts and conveniences—the improved ways of doing the daily household tasks—which change houses into homes.

Electricity has a deft way of doing your housework which is both pleasing to you and economical.

"But," you say, "My house is not wired. How can I use Electric Service?"

The answer is very simple. Many finished houses right in this town have been completely wired for Electric Service—wired without the slightest damage to walls, ceilings or decorations—without confusion or dirt.

Believing that there are still many households in Alma which would be glad to take advantage of Electric Service, we have joined in a great, nation wide movement to wire more houses for Electric Service during "Wire Your Home" Month.

During "Wire Your Home" Month, March 15th to April 15th, we will make special concessions which will make it decidedly to your advantage to have your home improved with Electric Service.

We have made arrangements to handle a large volume of business—but some delay will be unavoidable when the rush begins. So make your arrangements early. Write, phone or call to-day for full particulars and estimates.
